EXPERIENCE

App Developer

Project Friendship

September 2025 – Present
Northfield, Minnesota

Mobile app development for a community mentoring organization.

EDUCATION

BA in Computer Science

St. Olaf College
Northfield, Minnesota
Expected graduation 2027

SELECTED COURSEWORK

Data Structures
Algorithms
Operating Systems
Assembly Programming
Linear Algebra
Statistical Modeling

TOOLS

Playwright
React Native and Expo
Git and GitHub
AWS Amplify
Linux

Riley Saltzer

SOFTWARE DEVELOPMENT

PROFILE

I am a Computer Science student at St. Olaf College, graduating in 2027, with an interest in software development and the role technology plays in people's lives. I value curiosity, collaboration, and opportunities to learn from others. I am seeking a software engineering or technology internship as I prepare for a career in the field.

RELEVANT SKILLS

APPLICATION DEVELOPMENT

- Built backend logic and used external API requests to retrieve data for Project Friendship app features.
- Work on a React Native and Expo mentoring app with AWS Amplify integration.

TESTING AND PROBLEM SOLVING

- Added Playwright automated tests to check app functionality during development.
- Debug app features and work with teammates on code reviews and improvements.
- Practice sorting, divide-and-conquer, dynamic programming, and greedy algorithms in coursework.

PROGRAMMING AND SYSTEMS

C++, Python, SQL, and ARM Assembly.
Traced registers, stack frames, and memory in ARM assembly exercises.

FEATURED PROJECT

The Impact of AI on Brain Development

Individual ethics project

- Built a website exploring how AI may affect young people's learning, attention, and independent thinking.
- Organized research, stakeholder perspectives, ethics, and solutions into dedicated sections, with a quiz to help readers check their understanding.
